67- IMPORTANT ANNOUNCEMENT.—THE COL LEGE OF MEDECINE AND PHARMACY OF THE CITY OF NEW YORK—Have completed the organization of their institution, which how embraces perfect facilities for the treatment of all classes of disease.

THE MEDICAL DEPARTMENT.

In this department gratuitous advice is consequent.

In this appartment gratulious advice is given on all dis-eases of the chest, derangements of the digestive organs, theumetic affections, and all other diseases coming within the province of the physician. The consulting physici-ans are men of great experience and particularly skilled in the use of the stethescope, and the treatment of diseases of the lungs and heart.

PRIVATE CONSULTING DOMAIN

of the lungs and heart.

PRIVATE CONSULTING ROOMS.

These are devoted to the reception of patients suffering from venereal diseases. This department is conducted by a gentleman who was formerly connected with one of the best Lock Hospitals in Europe, and the College have the utmost confidence in his abilities and skill in the treatment of this most important class of maladiss.

SURGICAL DEPARTMENT.

The Coulear have also caraged the services of one

of this most important class of maladies.

SURGICAL DEPARTMENT.

The College have also engaged the services of one of the most distinguished operative Surgeons in New York, and are therefore prepared to receive and treat surgical cases. Squinting, cataract, and all diseases of the eye requiring an operation, -stricture of the urch re-calculi in the bladler, -club-oot, -diseases of the joints, and of the spine, will be particularly attended to. The fees will be extremely moderate. Patients who so desire will be visited at their own houses after operations.

PHARMACUTICAL DEPARTMENT.

The department is under the immediate superintendance of Dr. M. O'Regan, member of the Royal College of Surgeons. The medicines prescribed by the consulting physician, are dispensed at the lowest rates, and are of the best description, being imported from Paris and London.

THE CONSULTING ROOMS

are distinct from the Dispensery, and are open from 10 A.

M. till 2 P. M., and from 6 till 9 F. M.

Persons at a distance can on remitting the sum of one dollar and a statement of their case be furnished with a full letter of advice and one dollars worth of appropriate medicine.

By order of the College,

medicine.

By order of the College,

167-THE FOLLOWING LETTER IS FROM A PHYSICIAN in the Far West;—"Springfield, Ill., Nov. 17th,
1842. Gentlemen—In our neighborhood the past fall, we have been more than usually afflicted with the fever and ague. My practice is in a neighboring town in the county, and more than half the statt population have been from day to day prevented, by that western scourge, fever and ague, from work. Do not understand by this that our section of the Union is naturally unhealthy. On the con'rary, but in new countries, until the decayed vegetable composition of ages is destroyed, this complaint must exist. But to return to the object of my letter.—One of my neighbors, who had been as far east as your city during the summer, brangth with him a few dollar's worth of your Hoarhound Candy. Strange as it may seem, not one of his family has been afflicted with a fever and ague or cold, although living in an exposed situation; and he asserts, in which I fully concur, that it was solely from the use of your invaluable Hoarhound Candy. I trust, gentleman, that you will send a travelling agent out this way, and depend upon it, an immense quantity could be disposed of in every county in this state.

"I am, gentlemen, your obelient servant,
"R. M. ABERNETHY, M. D.
To Messrs, J. Prace & Son, 45 Division st.
"P. S.—After writing the above, I have accertained that J. C. Benson, of this place will act as agent. He is a responsible man, and if you conclude to send him some, you can send a box to Robinson & Co., Maiden Lane, and they will forward it for me.

MONEY MARKET,

Monday, Dec. 12-6 P. M. A moderate amount of business was done at the stock board this morning, with very little change in prices.—

New York State 7's improved \( \frac{1}{2} \); Ohio 6's of 1960 declined \( \frac{1}{2} \). Mobile funds II a II\( \frac{1}{2} \).

Rumors are in town from Washington, that the Hon. John C. Calhoun is to proceed to England on a mission based upon the late movements of Gen. Duff Green, in relation to a reciprocal treaty between the United States and France and England.

tution, with a capital of \$2,000,000, has for some time not paid dividends, and the stock sells at 57 per cent in the paid dividends, and the stock sells at 57 per cent in the market. In pursuance with the general consent of the stockholders the institution is to apply at the coming session of the Legislature for a reduction of the capital to the extent of 20 per ct. or \$400,000. The real deficiency of the capital, after cutting off all that is in any degree doubtful, is represented at \$250,000. A reduction of \$400,000 would therefore leave a surplus of \$150,000, and admit of dividends on the remaining capital, which now lies dead. A large portion of the bad debts may ultimately be recovered, and will in so much increase the dividends on the remaining stock. We presume no objection will be raised in the Legislature except for the purpose of feet, against the diminution of the Bank capital. There are other institutions which want looking into sadly.—The Manhattan, with a perpetual charter, professes to be above all law. Its stock is selling at 61, and it is very generally believed that all the purchases are made by the Bank itself, through its broker. This is a matter which should materially affect the perpetuity of the exclusive corporate privileges. The system of allowing Bank Officers and Directors to amass large private fortunes, by corporate privileges. The system of allowing Bank Officers and Directors to amass large private fortunes, by means of exclusive privileges, at the expense of the public and innocent stockholde's, will receive serious legislative attention during the coming session. In October last a State Convention was held at Syracuse to take this matter into consideration, and the result was the adoption of the following resolution:

"Therefore, Resolved, as the sense of this Convention, that no bank should be chartered or permitted to issue bills for circulation without making each and every stockholder in the institution as co-partners and joint debtors are liable in their ordinary dealings and business.

The memorial is now in active circulation throughout the interior, and the public, smarting under the severe losses they have sustained from broken banks, there being now affoat \$540,000 of the bills of broken safety fund banks alone, are very earnest in signing

being now aftoat \$540,000 of the bills of broken safety fund banks alone, are very earnest in signing it. It is as we have remarked on many occasions, the English system of banking, and is effectual in protecting the public from loss. Its operation is to compel those who engage in the business of banking, whether individually a callesticals to run the risk of their own speculations. or collectively, to run the risk of their own speculations and not as under the American system to allow them to

uch provisions were enfor sed, we would not see institu-

such provisions were enforced, we would not see institutions exploding and reducing numbers of widows and orphans to beggary, while it i directors continue to live in
more than Eastern magnificience.

We have received the Mc ssage of Gov. Bigger, of Indiana. The state of the trease ry is thus briefly described:—
The effect of these treasury notes on the State Treasury
will demand your consideration. Nearly the entire State
revenue for the past year, from present indications, will
be paid in this currency. This leaves the treasury nearly destitute of means to pay the members of the Legislature, the various public officers, and the current expenses
of the Government. The share Indiana is entitled to receive from the distribution of the proceeds of the public
lands is \$256,877.65. The General Government has withheld, of this sum, \$13,975—to pay back interest due on
the bonds of the State purchased by the General Governmeat, and invested in the Chickesmw and Chocktaw annuities, leaving a balance to the credit of the State of
\$12,902.66. This may be set down as constituting the
smount of actual money to meet the expenses of the State
for the present year.

After making many judicious remarks in relation to the

After making many judicious remarks in relation to the State debt, he sums up as follows:

But while we depresent actual repudiation, let us beware of that silent repudiation, which, avoiding the direct set, produces the same result. Our embarrassments at home, growing out of our treasury notes, must necessarily prevent us, until they are sideemed, from doing what duty requires at our hands. But we should never loss eight of our liabilities, nor seek to avoid, either directly or indirectly, the demands of justice.

Thus the Governer gives no encouragement as to the speedy adoption of any measures towards paying debts.

The condition of the State Bank and branches, as com-

The condition of the State Bank and branches, as compared with last year, is as follows:

STATE BANK OF INDIANA 31ST Oct., 1842 AND 1841.
Oct. 1841. Oct. 1842. Decrease
Leans. 3,768,158 2,207,917 328,47
Species 1,127,518 799,047 328,47
Circulation 2,249,411 1,732,518 1,207,83
Deposits 251,995 181,248 767,73

The exchaquer plan of the President's message continues to cause some discussion, although there is very little pro-bability of its being sdopted. It does not seem to meet the views of the altras of either party. The paper men object that the paper circulation will not be large enough, and the bullionists are afraid, as well as the President himself, who limits the amount to \$15,000,000, that there will be too much. Now, if the President had been convinced of the much. Now, if the President had been convinced of the perfect soundstess and utility of the currency he proposes to create, why should he object to allowing the amount to be regulated by the wants of trade? He was clearly not convinced of it. He was airaid of the phantom of his own creation, and like an engineer proving a piece of ordnance, he begins with small charges, and is afraid that his instrument of destruction will burst under his hand. After showing these indications, he avows that the chief purpose of the exchequer is "to pay the debts of the green of the exchequer is "to pay the debts of the green." purpose of the exchequer is "to pay the debts of the go-vernment with the redeemable paper of the government." The message further remarks that this money paid out will enter into general circulation, "thereby realising the great want of the age." If \$15,000,000 of irredemable govgreat wast of the age." If \$15,000,000 of irredemable gov-ernment paper is the great want of the age, then is the mil-lennium certainly approaching. If a want so easily grati-fied is all that is necessary to promote happiness, why was Dr. Dyott went to prison? After this money is paid to the go-vernment creditors, "which is its chief object," there will be a board of exchequer with 26 branches, and not one dollar in the ir tills. A merchant then calling would ask, "Will you buy my bill on any given point?" "We can-"Will you buy my bill on any given point?" "We cannot to-day—we have no money." "Will you draw on another branch?" "They are in the same situation as ourselves. They have no funds at present." "What can you do?" "Why, if you have got any specie, we will take it and give you a certificate of deposite without interest."—"What will you do with my specie?" "Oh, pay the government debts with it. The Treasury is very short just now." This is really all that the concern could do. The government bills could scarcely enter into general circulation; and if they did so, would come in active competition with all the circulation of the banks. All that are issued and payable in this city would either be discredited by the banks, and not come into circulation, or they would by the banks, and not come into circulation, or they would entirely drive out the bank circulation. The two currenparallel between the President's plan and that of "Frank lin":--

PLAN OF "FRANKTIN."

1. To issue government paper money to the creditors at their option, or on denosite of specie kept on hand to represent it—such issues unlimited in amount.

2. The exchange office may sell or accept a bill of exchange, receiving therefor the full amount in specie or the bills of the office or the bills of the office hereby authorised.

The pisn of "Franklin" allows as much paper money as

the people or their business want, and is well secured, or can command the property which it promises, and allows can command the property which it promises, and allows all those who wish to use the facilities which it offers to exchanges, to avail them islves of it or not, as they please; and every point secured so that specie will always be kept on hand to an amount fully equal to all the paper outstanding. The President's plan proposes to is sue \$15,000,000 of paper based saltogether on credit. He states that \$5,000,000 of species shall be set apart to represent it as "occasion requires." This is merely nominal—security has been appropriated by the states of the st of the sale of bills and the emission of certificates of deposite for specie, but makes no provision for keeping the specie on hand. It may be received at one door from a de-positor and paid out to a creditor at the other. It thus authorises three descriptions of paper. The plan of "Franklin" authorises two. The latter makes every possible provision for the security of the paper. The President proposes no security whatever, but avows that the chief object is to borrow money for the use of the Government, all other means of borrowing having failed. If the Government promises, bearing six per ct. interest, will not sell at all, how can he suppose that its promises,

## MARITIME HERALD

To Ship Masters and Agents,

We shall esteem it a favor, if captains of vessels will give to Commodore Robert Stivey, of our news fleet, a report of the abipung left at the port whence they sailed, the cassels spoken on their passage, a list of their cargo, and any foreign newspapers they may have. He will board them immediately on their arrival. Agents and correspondents at home or abroad, will also confer a favor by sending to this office all the marine intelligence they can obtain. Nantical information of any kind will be thankfully received.

SHITWERCES IN CARADA.—On Thursday, about 3½ r. M. the brings Bellona came ashore at Kamouraska, having parted from the ranchor while laying at the Brandy Pots during the gale.—The captain, pilot, three of the crew and the steward left the shi, in the boat with the intention of getting on shore, but were unable to do so in consequence of the streat quantity of ice—shortly afterward succeeded in landing on one of the small islands, where they were obliged to remain until about 12 o'clock the following morning—the steward and one of the men perished during the night. The captain, pilot, and the remaining two men were taken off the island by the inhabitants—the sailors are very much fro. t bitten in their hands and feet, and the captain perished during the night, as every pain acrass the chest. The mate and remainder of the crew were shortly afterward taken from on board the ship, all well. A letter from Cacona, dated Nov. 30, states—"During the heavy gale from NE. on the 28th, the George Ramsay beat very heavily on the stones, unshipped her rudder, damaged the trunkway, and considerably hurt her bot-bottom; a part of the after keel is gone, and the water flows in and out at every rise and fall of the tide. But the wind has talled tr-day, and the ice has almost all moved from the bay, and we hope to commence work with a morning's tide. We landed and stored in good order, about 123 bbys; the remainder of the cargo, 710 bbls flour, with the beef, pork, home and buter, have been submerged in sait water at every high tide.—The barq is Euterprise, Dawson, hence on the 17th off. for Live pool, was lost on the Manicongan Shoals on Thursday might, 21th Nov. The crew arrived at Cacona in the long boat and being wom out with hardship and edd, were saved by the executy, Dec. 5.

IMPROVED MINERVA SHOULDER BRACE,
WITH Goodyear's Patent Instable Rubber Serings. The obyest of this article is by bracing the shoulders, to expand
the chest, give free action to the lungs, and the chest is repeated to the compound of the chest is referred as it may be depended on for the runpose for
which it is recommended, and will be found of vast utility
and benefit to chidren of either sex, and all persons woo have
acquired the habit of stooping, this brace can be worn with
perfect case, and will be found no impediment to the true of
the arms. They are manufactured under the immediate inspection of Mr Parsils, who have for the last sittent years
been engaged in the manufacture of a variety of braces, but
mone the could be recommended as possessing so many requisite qualities as the improved brace now offered to the public.
The subscribes would carticularly recommend their Improved
Russia Riving Belt; the improvement consists in the introduction of a patent spring, which a spass the belt to the wishes
of the wearer, combining all the benefits of support, &c. deriv of from the belt manufactured after the old out erras, at the
same time giving case by their elacticity, and beautifying the
form of the wearer sold wholesale was retail at the old esta
binhment of Farsells & Agate, 211 Broadway, between Park
flace and Murras street.

MEDICAL—DOCTOR Gr.OVER has discovered several
new remedies, which are very speedy in effecting radical
curren. Dr G. is a regular graduate in his profession, and is not
classed with the self-tensed doctors and pretenders. His experience cuables him to cure such cases as have baffied t. e skill
of others. He has confined himself to an offee practice for the
lost Hyears in this city. He regulates his charges to swit the
times and circumstances of the pating. His series. rience enables him to cure such cases as have buffled to exill of others. He has confined himself to an office practice for the lest 14 years in this city. He regulates his charges to suit the times and circumstances of the patient. His Eistr and Red Drop are well known, having been before the public for the last five years. Price \$1, with directions, and all necessary advice. Strangers should be on their guard, lest they fall into the hands of a class of special pretenders, who boast of a very extensive practice—"this proves the necessity of obtaining good advice." Dr. G.'s offices are in No. 2 Ann atreet. Private entrance fourth door from the Maseum—lamp at the inner office door in the evenium.

PRIVATE ESTABLISHMENT
FOR THE TREATMENT OF VENEREAL DIS

EASES,
IN CONNEXION WITH
THE COLLEGE OF MEDICINE AND PHAR
MACY OF THE CITY OF NEW YORK.
THE College of Medicine and Pharmacy of the city of New
York, have "opened in councerion with their Medical and
Surgical Cotaniting Rooms, an establishment for the exclusive reception of patients suffering from veneral diseases. No
class of human maladirs requires for their safe and successful
treatment a greater degree of matured experience and practised
sk. II, than do those which vice entails on her votaries; but
and is not thousands must bitterly exknowledge, no other class
has been so much subjected to the malreatment of heartless
and uneducated pretenders—men without character—without
medical knowledge—without experience—without responsivity. The members of the College are fally convinced that
were veneral diseases uniformly subjected to the treatment of
properly qualified physicians, a vast amount of human suffering
would be brevented, and the innocent saved from the comequetes in which they are now too often involved with the
guilty. In order therefore to suppress, as far as possible, the
romous quackery, the College have opened this establishment,
and placed it under the masagement involved with the
guilty. In order therefore to suppress, as far as possible, the
romous quackery, the College have opened this establishment,
and placed it under the masagement will be dispensed to
them at less than the tunal rates. No fees whetever will be
required. The College have opened this establishment,
and placed it under the masagement.

But the subject of the third the high character of the College staeff is pledged.

Patients of both senses will be admitted and receive advice
gratual cost, and the recessary medicines will be dispensed to
them at less than the tunal rates. No
